7. Things I liked best about the presentation:

It was clear and helpful

Being introduced to new reports that I haven't had the time to find on my own

The availability of MARS links

Good introductory information

I have been at several MARS trainings and each one adds more valuable information

Hands on ... but I am glad I had a lap top

Very helpful in knowing/learning to access information/data on web

8. Things that could be improved:

Ask us where we're at before starting at the beginning ... we were already very familiar with the beginning of today's class

9. Suggestions for future workshops:

Just being able to take time to look at how our kids have scored

More time

We need you to come to our school and present
