COMMENT SECTION OF EVALUATION

Statements below preceded by * are statements made numerous times.

What did you like best about the workshop?

*Dan was personable, helpful, funny and knowledgeable.

Atmosphere was relaxed and friendly

*Hands on learning/practice – Rescuing Smokey the Bear, patients receiving first aid attention and the evacuation drill were excellent

*Speaker kept everyone's interest

Free shirt

Comfortable setting

What would you change?

Extend to a two day session; seemed rushed

More depth to topics and less entertainment

*Needed snacks drinks – don't run out of coffee

I think there were too many people to allow everyone to take a turn with the driving parts

If I were teaching us evacuation I would tell them what kind of accident so we know where to go for safety.

*Provide lunch

Additional comments:

*Good Job, learned a lot, come back again – very impressed

Intro and explanation too long

Ask drivers for topics they would appreciate having presentations on – areas they feel the need to learn more about or to review

*The instructor could not have been any better.

The best presentation I've been too

Poor lighting hard to read small print of material and acoustics were bad for understanding the speaker.

Far better than the State presentations and others we've had
